Vallea Lumina Activity Protocol	3	3.5	1

Overview

Vallea Lumina is a self-guided tour through the forests on the slopes of Cougar and Rainbow mountains. It is a non-strenuous walking activity with low inherent risk of transmission for COVID-19.

Objectives

To identify the unique challenges in operating this attraction while maintaining best practices for infection prevention and control (IPC) and maintaining routine cleaning of high contact surfaces.

Activity Risk analysis

Activity Risk	
Does activity place 2 or more people in close contact? (<2m/6ft)	No (0) Yes (1)
Does close contact persist for:	N/A (0) < 10s (1) 10-60s (2) >60s (3)
Is activity potentially strenuous? (risk of aerosolization)	Mild (0) Moderate (1) Heavy (2)
How effectively can IPC be implemented on the equipment?	None used (0) Easy (<5min) (1) Moderate (5-10min) (2) Difficult (10+min) (3)
Is there an inherent risk of injury present?	Mild (0) Moderate (1) Heavy (2)
Activity Risk Score (n/11) = 1	Low Risk

Identified Risks

Mitigation Strategies

Risk 1: Low risk for known transmission dynamics of COVID-19	Strategy 1: Maintain physical distancing and customer screening procedures. Require the use of non-medical face masks in base area when physical distancing cannot be maintained.
--------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

A *risk* is defined as a practice or procedure that results in close contact between individuals, use of shared surfaces/devices, increased probability of respiratory droplet aerosolization, or increased probability of physical injury.

Trip Procedures:

1. Customer Briefing and Waiver Signing
 - a. All customers must be screened with the PEAK RSEQ placard on arrival to TAG premises prior to self-guided tour departure.
 - b. Customers should be instructed to use non-medical face masks while within the Vallea Lumina course when physical distancing cannot be maintained.

Signage to post:

- **Appendix 4.10 Fraser Health “Stop. Do not enter if”**
- **Appendix 4.11 BCCDC Physical Distancing**
- **Appendix 4.13 Cough and Sneeze Etiquette**

Implementation Plan

Training needs: All staff must complete PEAK COVID-19 IDMP course. Written test for proof of due diligence.

Quality assurance: Training and PEAK oversight.

Materials needed: 1 x non-medical mask per operator.

Oversight: Ongoing external audit by PEAK project management.

Reviewed and Signed:
